

You need to create a textfile with the database settings in it. Please copy & paste the below exactly in a file called *dbsettings.inc.php*.

```
<?php
```

```
$dbsettings['engine'] = 'pdo_mysql';  
$dbsettings['host'] = 'localhost';  
$dbsettings['dbname'] = 'spotweb';  
$dbsettings['user'] = 'spotweb';  
$dbsettings['pass'] = 'qwerty';
```

Spotweb retrieves its information from the newsservers, this is called "retrieving" or retrieval of Spots. You need to schedule a retrieval job to run *retrieve.php* on a regular basis. The first time retrieval is run this can take up to several hours before all

le a
ompletion.
